

Fitness in a Whole New Light

A Lighting Guide for Fitness Centers

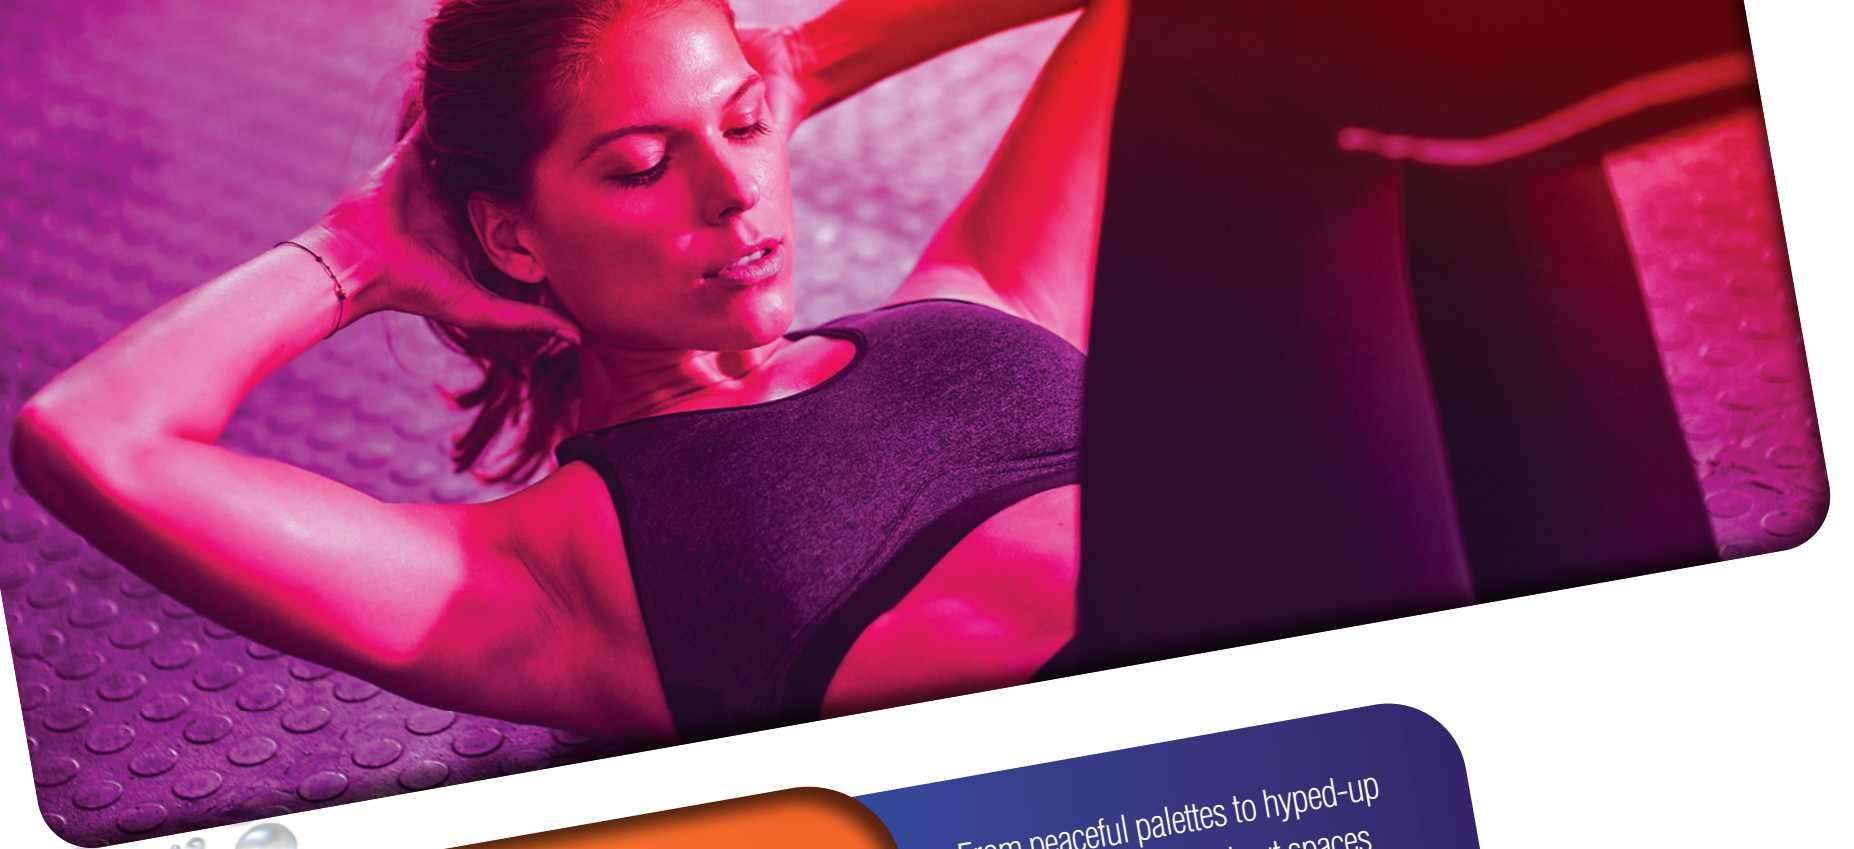

Why Lighting?

Lighting Enhances Experience.

Imagine the power to enhance a yoga class with the peaceful mood of a calming pastel colour wash. Recreate the energetic feel of dance club lighting effects great for activities like cycling and Zumba. The visual ambiance of a workout space can have a positive effect on energy and stimulate movement. Fitness centers that offer dynamically lit spaces for activities like yoga, cycling, Zumba, Pilates and more can attract larger numbers of clients because of the entertaining nature of working out there. Getting fit should be fun! Essentially lighting that is flexible and easy to control can turn fitness into an entertainment experience.

Crunches with Colour

Wash Lighting

From peaceful palettes to hyped-up hues, splash your workout spaces with a colourful visual personality that can be adjusted for each class.

EVE P-130 RGB

SlimPAR Pro H USB
