

Hospitality

**Lighting and effects
for the Hospitality Industry**

CHAUVET

Cordial and inviting reception areas. Dynamic, vibrant entertainment spaces. Dining areas immersed in peaceful, pleasing hues. CHAUVET DJ battery-powered wash lighting gives you the power, freedom and mobility to create warm, colourful and personalised guest experiences in a variety of hospitality spaces when and where you need them.

FreedomSeries

100% wireless lighting is in your hands with CHAUVET DJ Freedom series battery-powered fixtures. With transceivers built in, Freedom lights can send and receive wireless DMX signals for completely wireless control. Wash spaces large or small with dazzling light anywhere you need it. Watch your event areas breathe into colourful life with Freedom.

CE FC

Freedom H1

- Freedom H1 is a compact 100% TRUE wireless, battery-operated, LED wash light with a built-in D-Fi transceiver that fits in the palm of your hand.
- The fixture features a single hex-colour (RGBAW+UV) 10W LED.
- Magnetic base makes it easy to mount the light to most metal surfaces providing added versatility.
- Small size means effortless transport and set-up.
- Freedom H1 has a digital display for easy control and adjustment of all settings.
- Multiple control options include stand-alone mode, wireless DMX, or IR.
- The Freedom H1 X4 system includes 4 fixtures, 4 diffusers, a carry bag, multi-charger, and IRC-6 remote.
- Available in black or white housing.

CE FC

Freedom Q1N

- 100% TRUE wireless, battery-operated, narrow LED wash with built-in D-Fi transceiver
- Suitable for every event with either black or white housing
- System includes 4 fixtures, a carry bag, multi-charger and IRC-6 remote
- Multiple control options include stand-alone, wireless DMX or IR

CE FC

Freedom Flex H4 IPx6

- Freedom Flex H4 IP features a removable battery for easy charging and battery swapping making this 100% wireless, battery-operated par with a built-in D-Fi transceiver even more flexible and powerful.
- Freedom Flex H4 IP has hex-colour (RGBAW + UV) LED technology for unlimited colour mixing capabilities.
- Temporary outdoor-rated with a robust housing that repels water, snow, dirt, and sand for all-weather applications.
- The Freedom Flex H4 IP X6 system includes six Freedom Flex H4 IP fixtures and six quick-change battery packs in a rugged road case with built-in charger.
- Freedom Flex H4 IP has multiple wireless triggering and control options via the FlareCON Air and the FlareCON app and it works in master/slave mode with any Freedom Par.
- Convenient, wireless non-DMX control is also available with the included IRC-6 remote.
- Adjustable kickstand helps shine light exactly where it's needed and the built-in glare shield prevents unwanted light spillage.
- Customised colours can be created using the easy to read built-in LED display.
- Achieve smooth LED fading with built-in dimming curves.
- Compact and lightweight design of the Freedom Flex H4 IP fits easily inside sticks of Truss.

CE FC

Freedom Stick

- Freedom Stick is a unique and versatile free-standing RGB LED that can be pixel-mapped for ultimate programming creativity.
- This battery powered fixture has a built-in D-Fi receiver that allows it to be placed anywhere.
- Sticks also work excellently as truss warmers.
- Detachable metal base allows you to mount them on truss (clamps sold separately).
- User-customisable automated programs create complex looks in seconds.
- Additional control options include auto and sound programs via DMX, wireless master/slave or the IRC-6 remote.

CE FC

Freedom Par Quad-4 IP

- Freedom Par Quad-4 IP has 20 watts of RGBA colour mixing for that extra richness and variety that amber adds to colours.
- Can be operated with the control panel, the included IRC-6 remote, or from any mobile phone or tablet running the FlareCON mobile app.
- Temporary outdoor-rated robust housing repels water, snow, dirt, and sand for all-weather applications.

CE FC

Freedom Par Tri-6

- Freedom Par Tri-6 has 18 watts of RGB colour mixing
- Can be operated with the control panel, the included CHAUVET DJ IRC-6 remote, or from any mobile phone or tablet running the FlareCON mobile app.
- Freedom Par Tri-6 fits perfectly inside TRUSST and all other 12" box truss.

CE FC

Freedom Centerpiece

- Elegant, centerpiece up-light highlights floral and other decorative elements
- 100% TRUE wireless, battery-operated, with built-in D-Fi transceiver
- Polarised lenses eliminate unwanted glare
- Rated for outdoor use and impervious to table spills

Freedom Cyc

- 100% TRUE wireless, battery-operated cyc light blankets the wall with uniform colours
- Unique lens design perfectly mixes the RGB + WW colour spectrums
- Can be used on battery or connected to electrical mains for even greater output

FlareCON Air

- FlareCON Air utilizes cell phones and tablets and turns them into wireless DMX controllers.
- Works with all CHAUVET DJ Freedom series fixtures as well as all D-Fi products for versatile control over your rig.
- Built-in Wi-Fi transmitter connects with cell phones and tablets running the FREE FlareCON app, to allow the user to control the connected lighting fixtures. The FlareCON Air then converts the Wi-Fi signal from the phone or tablet into D-Fi and wirelessly transmits those signals to an unlimited number of receivers.

CE FC

Freedom Par Hex-4

- Freedom Par Hex-4 has four 10-watt RGBAW+UV LEDs for that extra punch and special effects that white and UV add to colour mixing.
- Limiter option for extending battery life so that when you use more than 4 colours you know you'll get a good long show!
- The Freedom Par Hex-4 comes in black or white housing so it fits into any décor.

EZSeries

A long, elegantly set dining table in a rustic venue. The table is covered with a white tablecloth and set with white plates, glassware, and silverware. Centerpieces consist of large, lush floral arrangements in gold-colored vases, interspersed with lit candles in gold holders. The room features exposed wooden beams and pillars, with warm, ambient lighting from track lights and chandeliers. The overall atmosphere is sophisticated and intimate.

Event lighting inspiration shouldn't be limited by cables and plugs. CHAUVET DJ EZ products give you the battery-powered flexibility to create lighting looks from fanciful foyers to notable nooks and crannies. Place these lights where you need them and turn otherwise plain spaces into vivid venues.

EZpin Pack 4

- Accent lighting and pin spotting with battery-powered EZpin Pack 4 makes lighting centerpieces, cakes, and other event space focal-points easier than ever.
- EZpin Pack 4 bundles four EZpin fixtures and one IRC-6 remote into an easily transportable VIP gear bag; perfect for mobile entertainers and event producers.
- Each light has a magnetic base that affixes to most metal surfaces, eliminating the need for clamps.
- No metal surfaces? No problem! Easily attach the lights to drop ceiling supports or air wall frames using CHAUVET DJ Scissor Clip.

EZBar

- Battery-powered bar with three independent warm white pin spots designed to accent event space elements.
- Each light can be manually adjusted to different angles to light a variety of subjects.
- Rechargeable lithium battery allows the fixture to be placed anywhere and provides up to ten hours of run time.
- Strong magnet for flexible mounting options to most metal surfaces.
- Included wireless IRC-6 remote can set the dimmer and turn the fixture on or off.

SpotLighting

A DJ booth in a dark setting, illuminated by bright spotlights. In the foreground, a bouquet of white and purple flowers in a clear glass vase sits on a table. A DJ mixer is visible on the table. In the background, another similar floral arrangement is visible on a table. The scene is dramatically lit with strong beams of light from above, creating a high-contrast, professional atmosphere.

Versatile and powerful CHAUVET DJ spotlight fixtures feature hard focus, soft washes, and bright crisp beams to project from distances near or far.

Pinspot Bar

- High-output bar with 6 independent pinspots designed to replicate traditional incandescent lamps
- No messy cables ensure a clean and elegant look for any upscale event
- Independent control of each head offers true flexibility and programming capabilities
- Includes various beam diffusers and 2700 K filters to help achieve the desired look

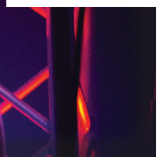

EVE TF-20

- Soft edge accent luminaire designed for mobile and installation applications
- Constant Current Reduction (CCR) dimming works with conventional dimmers
- Track adaptor included fits most single and dual circuit tracks
- Suitable for every event with either black or white housing
- Classic Fresnel style gives the feeling of stage and theatrical lighting

Wireless Technology Lighting

Bluetooth® wireless technology lighting lets you create enchanting and exciting lighting looks for smaller event spaces from a smartphone or tablet with no additional hardware needed using CHAUVET DJ's convenient BTair app.

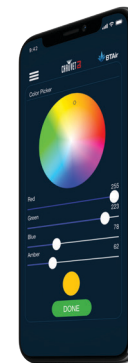

CE FC

Bluetooth®

SlimPAR T12BT

- SlimPAR T12BT has 12 tri-colour (RGB) LEDs
- Compact design easily fits inside sticks of truss making it perfect for truss working.
- Optional IRC-6 remote can also be used for control as well as DMX, automated and sound-activated programs.

BTAir

Experience the wonder of wireless lighting control right from your smart phone or tablet. BTAir is the app that makes it happen! Download the free BTAir app (patent pending) from the App Store or Google Play and discover how easy it is to control your Bluetooth® wireless technology compatible CHAUVET DJ fixtures right from your phone or tablet without any additional hardware needed!

CE FC

Bluetooth®

COLORband Q3BT

- Full-size, quad-colour linear wash light with built-in Bluetooth® wireless technology
- Control directly from a smart phone or tablet without any additional hardware

CE FC

Bluetooth®

COLORband T3BT

- COLORband T3BT is a compact linear wash light with 12 tri-coloured (RGB) LEDs and 3 zones of control to create amazing automated effects.
- Access built-in automated programs via optional IRC-6 remote, Master/Slave or DMX.

CE FC

Bluetooth®

SlimPAR Q12BT

- SlimPAR Q12BT features 12 quad-colour (RGBA) LEDs that generate a broad spectrum of colours and achieve natural-looking colour temperatures.
- Easily set static colours or automated programs with the optional IRC-6 remote or create eye-catching effects with sound-activated and automated programs.

Wireless Technology Lighting

CHAUVET DJ's EZLink series takes battery-powered products to new levels of nimble lighting by adding Bluetooth® wireless technology. Not only can these lights be placed anywhere, they can also be controlled right from mobile devices using the BTAir app. Corporate clients, lodging and dining guests, and more can be captivated by your lighting with just the touch of a button on a smartphone or tablet without any additional hardware needed.

CE FC

Bluetooth®

EZLink Par Q1BT

- 100% TRUE wireless, battery-operated, quad-colour (RGBA) LED Wash with built-in Bluetooth® wireless technology
- Control directly from a smart phone or tablet without any additional hardware
- Magnetic base affixes to most metal surfaces, eliminating the need for clamps

CE FC

Bluetooth®

EZLink Par Q4BT

- Achieve genuine amber colour washes with quad-colour (RGBA) lights like EZLink Par Q4BT.
- Quad-coloured LEDs provide richly vibrant and warm colour mixing or natural-looking colour temperatures.
- Convenient control options include the IRC-6 remote and sound-activated or automated programs.

CE FC

Bluetooth®

EZLink Par Q6BT

- Harness the colour-mixing power of this versatile fixture with six quad-colour (RGBA) LEDs, including genuine amber.
- EZLink Par Q6BT allows you convenient wireless non-DMX control using the IRC-6 remote or through sound-activated and automated programs.

WashLighting

A wide-angle photograph of a large indoor event space, likely a wedding reception. The room is filled with guests seated at round tables with white tablecloths and floral centerpieces. In the center, a large, ornate chandelier hangs from the ceiling. The floor is covered with a dark carpet, and a large, rectangular dance floor is illuminated with a warm, golden light. Several people are dancing on the floor. The walls are decorated with large, vertical, illuminated panels that create a shimmering effect. The overall atmosphere is elegant and festive.

CHAUVET DJ wash fixtures provide customised looks to any event space. Rich and vibrant colours make events warm and inviting.

D-Fi USB

CHAUVET DJ has developed a series of fixtures that include a standard USB connection. You can now wirelessly connect to all of them using the new D-Fi USB transceiver, which eliminates the need for any DMX cables. The USB transceiver is powered directly from the fixture. Control your USB fixtures using any of our wireless controllers, or from your smartphone with the D-Fi Hub and FlareCON.

U.S. Patent No. 10,019,893

Optional IRC-6 Remote and
D-Fi USB Transceiver

SlimPAR Pro H USB

- LED Par designed for any application in need of a high-power, hex-colour (RGBAW+UV), low-profile wash light.
- D-Fi USB compatibility for wireless Master/Slave or DMX control.

Optional IRC-6 Remote and
D-Fi USB Transceiver

SlimPAR H6 USB

- Low-profile LED PAR with 6-in-1 LED technology (RGBAW+UV).
- D-Fi USB compatibility for wireless Master/Slave or DMX control.
- Generate a broad spectrum of colours and achieve natural-looking colour temperatures with 6-in-1 LED technology.

EVE Series

Entertainment and gathering spaces become warm and personalised with the addition of customised gobo projections and pleasing, vibrant washes of colour. EVE products add elegant personality to any room or venue.

Optional
D-Fi USB Transceiver

EVE E-100Z

- Warm white ellipsoidal designed for mobile and installation applications.
- Easily highlight areas by altering the projected beam with framing shutters.
- Flexibility to project from any distance using the manual zoom
- D-Fi™ USB compatibility for wireless Master/Slave or DMX control.
- powerCON®-compatible power input/output connections for power linking.

Optional
D-Fi USB Transceiver

EVE E-50Z

- Warm white ellipsoidal designed for mobile and installation applications.
- Easily highlight areas by altering the projected beam with framing shutters.
- Flexibility to project from any distance using the manual zoom
- D-Fi™ USB compatibility for wireless Master/Slave or DMX control.
- powerCON®-compatible power input/output connections for power linking.

Optional
D-Fi USB Transceiver

EVE P-150 UV

- Robust blacklight cannon designed for mobile and installation applications.
- Included interchangeable magnetic lenses alter the beam to desired angles.
- Built-in gel frame holder and 6¼-inch accessory slot to hold barn doors.
- powerCON®-compatible power input/output connections for power linking.
- Fanless design ensures 100% silent operation.

Optional
D-Fi USB Transceiver

EVE P-140 VW

- Variable-white (2700 to 13000 K) wash light designed for mobile and installation applications.
- Included interchangeable magnetic lenses alter the beam to desired angles.
- Built-in gel frame holder and 6¼-inch accessory slot to hold barn doors.
- powerCON®-compatible power input/output connections for power linking.
- Fanless design ensures 100% silent operation.

Optional
D-Fi USB Transceiver

EVE P-130 RGB

- Robust wash light designed for mobile and installation applications.
- Included interchangeable magnetic lenses alter the beam to desired angles.
- Built-in gel frame holder and 6¼-inch accessory slot to hold barn doors.
- powerCON®-compatible power input/output connections for power linking.
- Fanless design ensures 100% silent operation.

Optional
D-Fi USB Transceiver

EVE P-100 WW

- High output warm white (3500 K) wash light designed for mobile and installation applications.
- Included interchangeable magnetic lenses alter the beam to desired angles.
- Built-in gel frame holder and 6¼-inch accessory slot to hold barn doors.
- Fanless design ensures 100% silent operation.
- Flicker-free on video due to the high-frequency LED dimming.

Event Atmosphere

CHAUVET DJ atmospherics bring a dramatic touch to a variety of hospitality spaces and are perfect for themed events. Imagine guests entering a venue on a swirling cloud of low-lying fog, or the delighted response to cascading haze-filled bubbles that will leave them in awe.

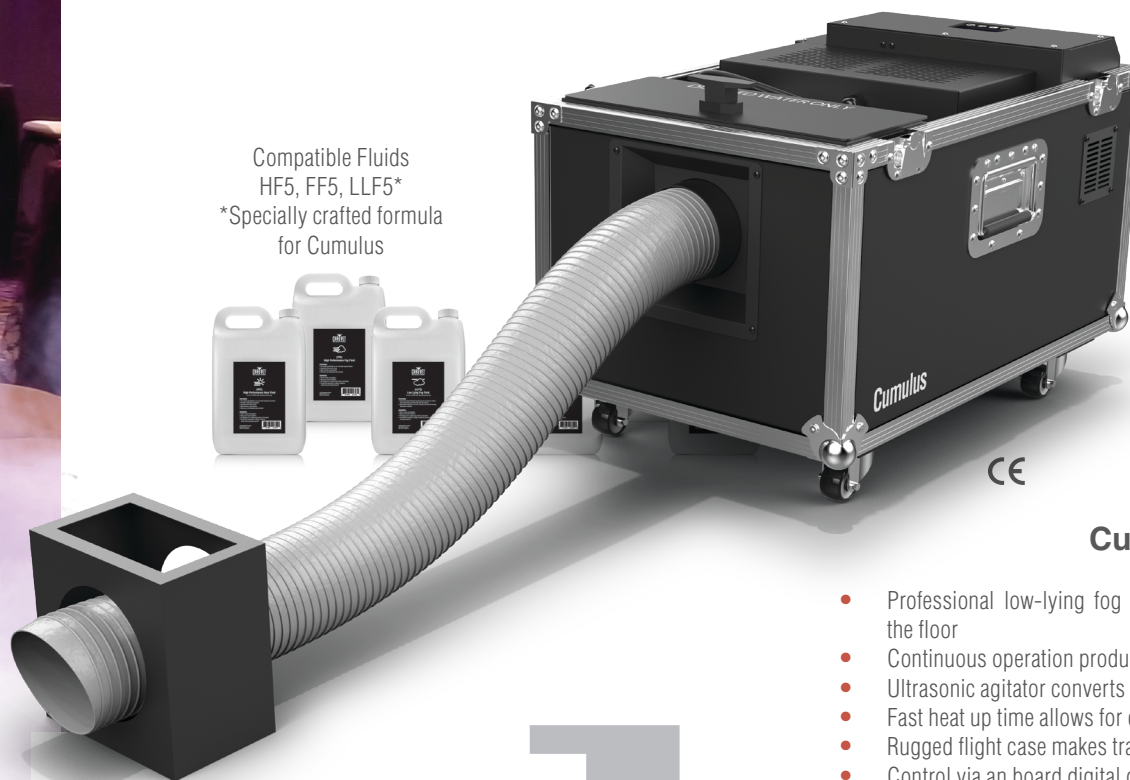

Hurricane Bubble Haze

- Multi-purpose atmospheric machine emits bubbles, haze or haze-filled bubbles
- Always ready and can run continuously to keep the party going
- Gravity-fed bubble reservoir recirculates unused bubble fluid reducing fluid consumption
- Variable-speed loft fan pushes bubbles up into the air
- Built-in cleaning function increases machine longevity and reduces clogs
- Patent pending

Compatible Fluids
BF5, HF5

Compatible Fluids
HF5, FF5, LLF5*
*Specially crafted formula
for Cumulus

CE

Cumulus

- Professional low-lying fog machine creates thick clouds that hug the floor
- Continuous operation produces fog on demand
- Ultrasonic agitator converts distilled water into a thin mist
- Fast heat up time allows for quick operation
- Rugged flight case makes transportation a breeze
- Control via an on board digital display or DMX
- Locking casters prevent an accidental rollaway
