

CLP-09

The CLP-09 is an ingenious little clamp that helps you perfectly place your products on trussing. The CLP-09 was specifically engineered to fit the 20mm cross braces of standard 12" trussing. Because of its diminutive size the CLP-09 is designed smaller fixtures weighing less than 20lbs. A complete wrap-around design ensures stability and safety while the ABS plastic will not scuff your truss or lights.

Highlights

- Designed to fit on 0.75 in (20 mm) truss cross braces for more versatile mounting options
- Increases security and stability by completely wrapping around truss
- Made of ABS plastic which won't scuff, scratch or dent truss

Specifications

- Weight: 0.3 lb (0.1 kg)
- Dimensions: 2.8 x 1.5 x 3 in (72 x 39 x 75 mm)
- Load capacity: 20 lb (9.1 kg)
- Fits: 0.75 inch (20 mm) truss cross braces
