

Freedom Par Hex-4

The Freedom Par Hex-4 is the most colorful model in the next generation of the Freedom Par family. It has four 10-watt RGBAW+UV LEDs for that extra punch and the special effects that white and UV add to color mixing. The Freedom Par Hex-4 has a special limiter option for extending battery life so that when you use more than 4 colors you know you'll get a good long show! The Freedom Par Hex-4 comes in black or white housing so it fits into any décor and travels safely while charging using the [Freedom Charge 9](#) road case. White housing not available in European Markets.
