

Freedom Stick

Freedom Stick is a unique and versatile free-standing RGB LED that can be pixel-mapped for ultimate programming creativity. This battery powered fixture has a built-in D-Fi receiver that allows it to be placed anywhere. The sticks also work excellently as truss warmers. A detachable metal base allows you to mount them on truss (clamps sold separately). User-customizable automated programs create complex looks in seconds. Additional control options include auto and sound programs via DMX, wireless master/slave or the [IRC-6](#) remote.
