

Geyser P5

Geyser P5 produces safe and dynamic, color-filled bursts of fog without the use of any toxic chemicals, fire or heavy CO2 canisters. Five penta-color (RGBA+UV) LEDs create beautiful color mixing. Assign different colors to each of the included remote's buttons and the manual button. Control the unit from built-in DMX, included Geyser wireless remote, or manual control. The digital display allows easy configuration even in dark, fast paced environments and Geyser P5's small form factor allows the unit to go anywhere.
