

Hemisphere 5.1

Hemisphere 5.1 is a room-covering centerpiece that projects RGBWA LED beams through dozens of clear lenses — just like a rotating, multi-colored mirror ball. Individually controllable LEDs match the mood of any event and allow you to create custom light shows. Multiple control options include 5-channel DMX mode and built-in automated and sound-active programs. Power link up to 10 units to save time running cables, and no duty cycle means the fixture can run all night.

Highlights

- LED centerpiece emits multicolored effects similar to a mirror ball
- Achieve maximum color options with red, green, blue, white and amber LEDs
- Mounts without a single clamp using the convenient center mounting point
- Design customized looks without DMX by selecting colors in stand-alone mode
- Create an ever-changing star field with a motor that spins in both directions at variable speeds
- Save time running cables and extension cords by power linking multiple units
- Sound-activated programs dance to the beat of the music
- Easily access built-in automated programs in master/slave or DMX mode
- Fits best in the CHS-40 VIP Gear Bag
