

Intimidator Spot Duo

Intimidator Spot Duo features two fully and independently controllable moving heads mounted on an easy-to-rig bar. Slide it onto a tripod, clamp it to truss or set it on the floor. This high performance duo is linkable with one other unit to create eye-catching synchronized shows. Independent color and gobo wheels create numerous projections and mid-air effects, while DMX control allows for independent control of each head. Fits best in the [CHS-DUO](#) gear bag.

Highlights

- Two powerful Intimidator™ moving heads pre-mounted on a single bar
- Safely mounts to truss or tripod, or simply set on the floor
- Omit the need for additional clamps with the built-in mount suited for most tripods or speaker stands
- Add the look of a programmed show using 16 built-in master/slave programs
- Maximize lighting options with separate color and gobo wheels, as well as pan and tilt functions, found in each moving head
- Reduce programming time with master/slave programs which include an offset feature
- Save time running cables and extension cords by power linking multiple units
- Multiple control options include automated and sound-active programs, as well as master/slave or DMX mode
