

## Kinta HP

Dazzling displays of thousands of multi-colored beams burst from this compact high-powered LED effect light. Kinta HP features an innovative grouping of 2 quad-color LEDs (RGBW & CMYO) to produce unique color combinations and continuous motor rotation produces dynamic effects not capable on other fixtures. Kinta HP has adjustable motor speed and rotation to ensure the light matches the environment and its digital display allows color and rotation speed control without the need of DMX. Trigger built-in automated and sound-activated programs in master/slave or DMX mode and use an optional [IRC remote](#) for more flexible control options.
