

MotionOrb EXT

The Motion Orb is a fantastic new décor light made up of 55 individual color-changing and strobing LED orbs in strings that can be hung like a curtain, drawn to one side, or draped across the ceiling. The Motion Orb comes standard in a 2-meter length, but it can be expanded to 4 meters long with the optional Motion Orb Extensions. The Motion Orb comes with a variety of built-in color changes and chases, and when operated in DMX mode it can be pixel mapped! In Master/Slave mode color changes and chases can be expanded across three Motion Orb products for a wall full of coordinated patterns. The Motion Orb comes with a custom made gear bag for easy, safe, and stylish transporting.
