

Power Panel

The PC-08 features 8 switches that control individual Edison plugs in the rear of the unit that are fused by a 15 amp circuit breaker mounted into the front of the unit. This unit is 19" rack ready, taking up just one rack space, and provides individual switch solutions for smaller effect lights. The PC-08 features a black body with red switches.

Highlights

- Power panel with single space (1U) mounting rack, 8 switches and 15 amps
- Increase flexibility with independently controllable and grounded switches
