

Radius 2.0

Create overlapping, multi-colored rings of light with Radius 2.0. Powered by 3W RGBWA LEDs, this fixture offers variable strobe in any color combination and features a variable-speed motor to control back-and-forth motion. Built-in automated and sound-activated programs operate with or without DMX control.

Highlights

- LED effect light creates overlapping rings of multicolored light
- Achieve maximum color options with red, green, blue, white and amber LEDs
- Create ever-changing effects with a motor that rotates back-and-forth at variable speeds
- Save time running cables and extension cords by power linking multiple units
- Sound-activated programs dance to the beat of the music
- Easily access built-in automated programs in master/slave or DMX mode
