

SlimPAR Pro Tri

It utilizes the latest in tri-color LEDs delivering a uniform output. Eighteen tri-color (RGB) LEDs power the fixture and the color is mixed before the lens which limits any undesirable effects of multi-colored shadows.

Eliminating multi-colored shadows also allows the unit to serve admirably as front light.

Highlights

- LED Par designed for any application in need of a low-profile, tri-color LED wash light
- Nearly eliminate multicolored shadows with high-power, tri-color LEDs
- Emits a smooth, even output perfect for front light applications
- Ideal for quiet applications due to silent operation and no moving parts
- Flicker-free operation suitable for use on-camera use
- Achieve super-smooth LED fading with built-in dimming curves that simulate existing lighting
- Ensure a secure power cord with the locking IEC power input (US only)
- Trigger eye-catching effects with built-in, automated programs via master/slave or DMX mode
- Increase stand-alone versatility with multiple user-configurable settings
- Save time running cables and extension cords by power linking multiple units
- Fits best in the CHS-30 VIP Gear Bag
