

Swarm 4 FX

Swarm 4 FX combines three dynamic lighting effects in one rugged and compact housing. A single fixture includes quad-color (RGBA) dual moonflowers, a red/green laser and a white strobe. The dual moonflowers spin enough colorful beams to fill an entire dance floor with energy and excitement. Added impact is provided by the thousands of razor sharp red and green beams produced by the laser. The bright output of the strobe ring, which features built-in motion effects, adds to the fun. Control options include sound activation, master/slave, DMX modes or the IRC-6 remote.
