

# Xpress 512 PLUS

Xpress 512 Plus brings you the same capabilities of the Xpress 512, plus an external triggering that is available via a mini-DIN connection or an optional infrared remote. An internal calendar can also trigger playback at a specific time without a computer.

# Highlights

- Top of the line interface for the ShowXpress software
- Transmits 1 DMX universe, or control multiple universes by connecting multiple units
- Access external triggering using a mini-DIN connector to control up to 4 scenes remotely
- Optional infrared remote allows you to control up to 18 scenes remotely
- Easily connect the infrared extension using the rear connection
- Dual power options include USB or AC/DC
- Built-in electrical isolation for DMX line
- Playback up to 18 shows with speed control and layering without using a computer
- Create unlimited shows when operating with a computer
- Trigger playback at a specific date and time, without a computer, using the internal calendar
- Compatible with Windows® and Mac OS X systems
- Lock your cable into place using the Neutrik® DMX connector
