

HC-T (Timer Remote Control)

The FC-T is a remote control designed to work with most CHAUVET DJ fog machines. Three LED indicators display timer on/off, continuous fog on/off and whether the machine is ready or heating. Two rotary knobs set interval and duration times.

HIGHLIGHTS

- Designed to automatically trigger the fog output in most CHAUVET DJ fog machines
- Eliminates the need for extra plugs by receiving power from the fog machine
- Built-in LEDs indicate the machine and controller status
- Simplify operation with 3 rotary knobs that set interval, duration time and output levels
- Fog on the fly with a manual override and constant output button
- Keep track of your receiver with the magnetized back plate
